📍 Delhi, IN

To power up Delhi and encourage a cleaner mobility, **Bharat** and **Verde** devised a smart solution.

We successfully converted a waste dump into an EV charging station to **e** **o** **r** **e** **e** **o** **t**

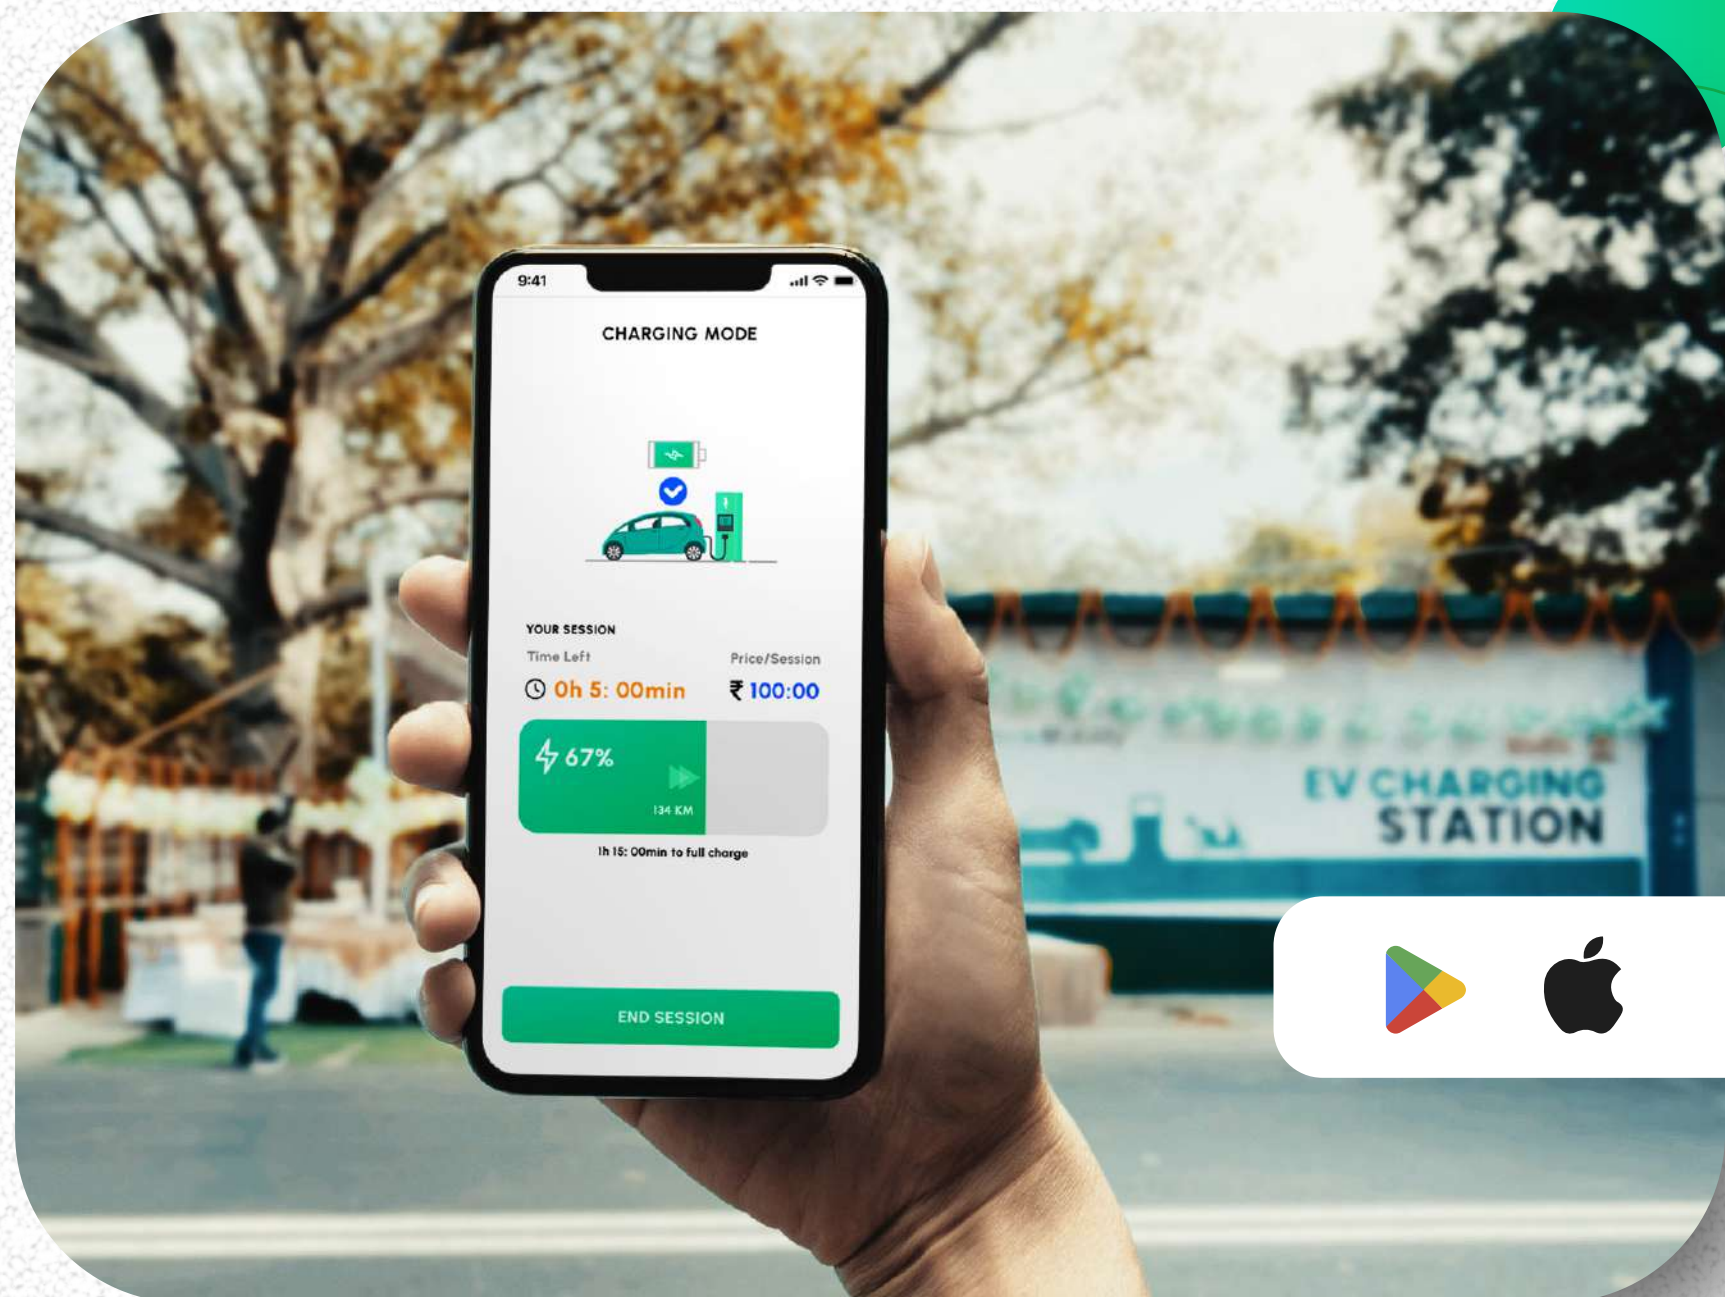

As a result of this initiative, 3 EVs can now be simultaneously charged by Verde Mobility's 30kW AC Charger at the Dhalao site.

The EV user can even manage and monitor the charging progress remotely

via **VerdeLife** App
